

6 Rounds of gameplay

Each Round:

- **Select Room:** Move your token to the room you want to shop in.
- **Draw:** Take item cards from the deck in your room. Once drawing starts, no talking until the end of “Keep”.
- **Keep:** Players decide which item cards they want to keep, others are discarded.
- **Tag:** Draw tags and apply to kept item cards: this tag should stay with the item for the rest of the game.
- **Resolve:** Players may now:
 - Move cards from “hand” to cart.
 - Buy cards from “cart” and move to “bought”.
 - Give cards from “hand” or “cart” to other players in same room.
 - Give money to other players in same room.
 - Discard items from hand or cart.
- At the end of the round, nothing can be left in “Hand”.

Shoplifting

Once per game each player may move an item from Cart to Bought without paying for it: flip Shoplifting from Angel to Devil to mark that you shoplifted.

Ditching

Before the final round, all players blind vote who, if anyone, to ditch. If someone wins a clear majority, they are ditched: non-ditched players continue with rounds of voting until no one wins clear majority.

During the final round, Ditched players may collect an extra 10 from the bank, and may tag and add to their cart a selected item from the Discard pile.

Game End

Each player assembles a “final outfit” from bought items. Final outfit may contain at most one instance of the same piece (cannot wear two hats).

Each player should then sum up all earned stars from final outfits:

- Stars from price tags
- Stars from matching preferences

Victory conditions

A player is “clear” if:

- Their final outfit contains all matching pieces.
- They did not shoplift, or they did and every item in their final outfit matches color, or style, or both.

Non-Ditched players win if:

- All Non-Ditched players are “clear”.
- Total stars must meet or exceed $12 * (\text{num Non-Ditched players})$.
- The Non-Ditched player with the fewest stars has more stars than any ‘clear’ Ditched player.

Ditched players win if non-Ditched players lose.
